BETTER CONVERSATIONS & COACHING LEVEL 1

*Your path to exceptional conversations
and coaching starts right here*

GREAT LEADERS ARE GREAT COACHES. To coach someone means to help them reach their full potential. And leadership, at its core, does exactly that. At every level of your organization, leaders have the opportunity to coach, give feedback and ignite better conversations. But all too often—whether it’s a team manager, executive or HR professional—many feel ill-equipped to do so. And the unfortunate truth is that without effective communication, the success of your entire organization could be at risk.

IT ALL STARTS WITH A CONVERSATION. Better Conversations & Coaching Level 1 gives leaders the skills and confidence necessary to have effective coaching conversations. By working in small groups led by an expert coach, each participant will develop core communication skills and learn how to integrate these skills into coaching engagements back at work. Coaching conversations, both formal and informal, offer a chance to connect, build trust, and develop critical thinking skills—make sure you make the most of them.

WHAT YOU’LL LEARN:

- Core skills to improve the effectiveness of daily conversations and how to utilize these core skills in formal and informal coaching conversations
- How to better manage coaching relationships
- How to adapt your coaching style as needed
- Build a results-driven personal development plan
- Build an awareness of the impact of coaching on the organization’s culture

GO BEYOND THE BASICS. This experience not only shows leaders a simple, practical and scalable coaching model that will increase their coaching competence, it gives them the confidence to make a real impact on the people they work with every day.

WHAT YOU'LL EXPERIENCE:

- Self-evaluation, as well as facilitator, coach, and peer feedback enable participants to identify strengths and hone development areas
- 1:4 ratio of CCL professional coaches to participants
- Proven techniques to accelerate development and mastery of coaching skills

1 PERSONALIZED ATTENTION

It's one thing to learn about new beneficial skills, but they won't truly sink in until you experience them first hand. Practice sessions involve a maximum group size of 4 and plenty of hands-on interaction. Better Conversations & Coaching Level 1 transforms your personal communication and coaching challenges into communication and coaching mastery.

2 PROVEN TECHNIQUES

This specialized program condenses decades of coaching expertise and thought leadership into easy-to-execute behaviors. You'll learn CCL's simple 4 Core Skills first, and put them into practice throughout the rest of the program.

3 SUSTAINABLE RESULTS

At the end of the program, you'll leave with a well-defined framework for communication and actionable plans to apply the learning. We also make it easy for you to stay on track with multiple post-program follow-up sessions with both your peers and your personal coach.

4 COACHING EDUCATION

Upon completion of Better Conversations & Coaching Level 1, you'll have the option to participate in Better Conversations & Coaching Level 2.
