THE LEADERSHIP DEVELOPMENT ROADMAP

A Guide for Developing Successful Leaders at All Levels
CCL’s Leadership Development Roadmap meets you where you are...
CCL knows learning to lead is an intensely personal experience – and one that shifts over time. Our real-world approach helps you address the reality of your situation, your organization and your goals, aligning your personal advancement to the achievement of actual business objectives. Our programs, custom initiatives, coaching, and assessments are customized to deliver the outcomes that matter most to you.

Our Leadership Development Roadmap helps you match the right learning at the right time for each leader, whether it’s Leading Self, Leading Others, Leading Managers, Leading The Function, or Leading The Organization. Our roadmap meets you where you are and takes you where you and your organization want to go. By focusing on the skills critical for success at each level, your organization can see faster results.
Leadership Challenges and Competencies

The Leadership Development Roadmap connects the challenges leaders face every day with the essential skills they need to be successful. We’ve created a flexible suite of development resources targeted to five levels of leaders:

- **Leading Self** - Individual contributors, professional staff and emerging leaders
- **Leading Others** - Leaders of individual contributors
- **Leading Managers** - Experienced leaders who lead other managers or senior professional staff
- **Leading the Function** - Senior leaders of organizational functions or divisions
- **Leading the Organization** - Top executives leading the enterprise

Leadership skills should continue to evolve and adapt in order to meet the constantly changing conditions and challenges of a global marketplace. CCL’s Roadmap connects leaders to the right development at the right time. With the Roadmap, organizations have the information they need to steer leader development, fuel sustained success and prepare all leaders for what’s next.

Leadership Assessments

CCL’s assessments are powerful drivers of learning and change. Our assessment and feedback process helps leaders measure where they are, clarify needs and goals, and set direction for further development.

CCL pioneered the use of assessments and feedback in leadership development decades ago. Our expertise and state-of-the-art, research-based assessment tools have earned the trust of thousands of HR professionals and consultants because they:

- Easily fit into existing organizational development programs and offer relevant observable and measurable results on leadership skills managers learn through experience.
- Provide options for customization that can increase relevance, ownership and advocacy throughout the organization.
- Provide statistically valid and reliable results that help individuals and teams align their performance objectives with those of the entire organization.
- Provide language options for use with non-English speaking employees.
