It takes an average of 143 days for employees to conclude a new leader has failed to make the transition.

New leaders need to rethink success. The skills, knowledge, and perspectives that helped them get the new leader job are not necessarily the ones that will help them keep the job or advance in their careers. But they need support and help.

CCL Boost™ for New Leaders is a self-paced online leadership course based on the deep research completed by the Center for Creative Leadership on first-time managers. This online program equips new managers with the leadership skills, confidence, and support needed to effectively transition into a management role. It provides six mindset shifts that new managers can use while on the job to attain immediate success in their new role.

**Why CCL Boost?**

- Grounded in over 50 years of CCL research
- Effective, dynamic bite-size learning
- Flexible – follow the path or choose what works best
- Actionable tips, tools, and tactics to make the shift from individual contributor to new leader

We all have mental scripts that tell us how the world works. The old script was all about “me” — standing out as an individual. But as a new leader, the script must be flipped from “me” to “we.” This course teaches how to adopt the mindset of a leader.

**CCL Boost™** equips leaders with actionable, practical, evidence-based advice and examples.
