Leadership Program for Core Development
Top Executives Leading the Organization

Leadership at the Peak
We deliver results that matter – sustained impact for you, your business and the world.
It’s different at the top. We know.

Leading the enterprise is a powerful – and humbling – experience. Top leaders play an enormous role in the success of organizations. And, they need to excel in new ways. The challenges of leading at the top are far-reaching, complex and essential to get right. Based on CCL’s extensive research, leaders at the top take on:

- **Business operations**, the heart of all other challenges.
- **Strategic issues**, setting and realizing vision, direction and goals.
- **Managing change**, both in the day-to-day and in the long-term.
- **Boundary spanning**, leading across levels, silos, cultures, backgrounds and interests.
- **Talent management**, ensuring the current and future talent pipeline.
- **Individual impact**, understanding and adjusting leadership style in effective ways.

The Center for Creative Leadership (CCL®) understands that leading the enterprise gives you a different view – and different responsibilities – than any other role.

Leadership at the Peak enables top executives to maximize personal leadership power to accelerate the organization’s commitment, alignment and results.

**Leadership at the Peak is a five-day, highly personalized program that allows top executives to shift:**

- **Focus** – to be immersed in high-level challenges.
- **Approach** – to consider changes that have immediate and practical application.
- **Mindset** – to make a powerful difference personally, professionally and organizationally.
