No matter the intelligence, experience, or drive, there are four core skills that are important for every leader at every level. The Center for Creative Leadership calls them the Fundamental 4: self-awareness, learning agility, influence, and communication. The Fundamental 4 have endured the test of time and are the basis for the Lead 4 Success™ program, where participants immerse themselves in development, adapt these skills to their own leadership contexts, participate with peers in learning, and share ideas to apply to their leadership lessons to their real world.
This program is ideal for:

- Emerging leaders without direct reports, but on the path to leadership in the next 12 to 18 months
- First-time managers who have been in the role for 6 to 12 months
