Leadership Gap Indicator™

Center for Creative Leadership

The minimum technical requirements needed by any individuals using the Leadership Gap Indicator are listed below.

We recommend that a member of your information technology group review these requirements prior to use.

Internet: A connection to the Internet is required.

We support the following desktop browsers:
- Edge (current and last major revision)
- Chrome (current and last major revision)
- Safari (current and last major revision)
- Firefox (current and last major revision)

On mobile, we support the current and previous major releases of the following browsers:
- Safari
- Chrome
- Android

Our Internet system is designed to be non-intrusive to our clients and all traffic over the internet is encrypted using https standards and 256-bit SSL/TLS encryption.

Software: Adobe Reader is required to access electronic reports.

JavaScript: Browsers must be JavaScript-enabled.

Cookies: Cookies must be enabled.

Email: Respondents must be able to receive Internet (external) email. IT Messaging Administrator must be informed to open any firewalls that may prohibit access to the following domains:

ccl.org
leaders.ccl.org
datasltn.com
datasolutionsinc.com
notify@datasltn.com (email purposes)
